One gel is enough for 10 m²~13 m².
The effects last 30~45 days.

All JAPAN MADE

Catch Clean is made in Japan,
but you can purchase it with low price.

Purpose of Catch Clean

Office

Nursing facility

Entrance · Living room

Guest room at hotel

Effects of chlorine dioxide.

Experiment

A white bread in a box with gel which generates chlorine dioxide and a white bread in a box with tap water were left for two weeks. After two weeks, the former was covered with little mold.

Chlorine dioxide Tap water

Comparison of minimum concentration to kill virus for disinfectant.

CMinimum concentration to kill virus 150 seconds after putting disinfectant in the box.

	E.coli	S.aureus	MRSA ※	B.subtills	A.niger
Absolute ethanol	500,000	500,000	500,000	>500,000	>500,000
Benzalkonium chloride	100	10	100	1,000	10,000
Sodium hypochlorite	10	10	10	>1,000	1,000
Chlorine dioxide	1	1	1	100	10

※MRSA Super bug

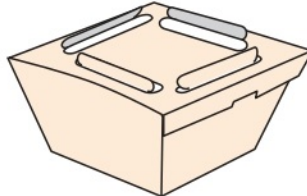

Chlorine dioxide can yield its effect with a smaller quantity than other bacteria removals.

How to Use

- Take a plastic pack, a pouch and a instruction from the box, and open the perforations outward.
- Remove the lid of plastic pack and put it in the box. If you touch contents of plastic pack, you should wash your hands.
- Cut the pouch and sprinkle powder. Then it reacts and turns yellow.

- After reacts occur, please use it with the lid closed. Since chlorine dioxide is heavier than air, put it on as high a place as possible.

Cautions

- It is not food.
- Store it in a cool space away from direct sunlight and children.
- Put it in flat and as a high place as possible.
- If you swallow it accidentally, contact a doctor immediately and drink one or two cups of water or milk after rinse your mouth.
- If the content gets in your eyes, rinse your eyes immediately with a large amount of water.
- Don't use it in a place which is higher than 40°C or have direct sunlight.
- If you spill the gel, wipe off immediately.
- If the gel gets on clothes with color or pattern, its color will fade away. If the gel gets on clothes, rinse clothes immediately.
- The colors / patterns of clothes or fabric could be lost. Do not keep one close to them.
- Don't use it a place which cannot get some fresh air.
- Ex.ToiletKeep it away from high concentration gas and metals.
- Keep it away from your face.
- It cannot remove all viruses.
